

Access Service License Registration

What is Access Service license?

The **UASL** “permitted an access service provider to offer both fixed and/or mobile services under the same license, using any technology.” This license can provide both voice and internet services to his clients. It’s just like a triple play services means can play Videos , Voice and Data(Internet).

Unified Access Services operators are free to provide, within their area of operation, services which cover collection, carriage, transmission and delivery of voice and/or non-voice messages over Licensee’s network by deploying circuit and/or packet switched equipment.

Unified Access Service License(UASL) is of only One type ie.
