# About Access Service license

- The **UASL** “permitted an access service provider to offer both fixed and/or mobile services under the same license, using any technology.”
- This license can provide both voice and internet services to his clients.
- It's just like a triple play services – which means play Videos, Voice and Data (Internet).

# About Access Service license

- Unified Access Services operators are free to provide, within their area of operation, services which cover collection, carriage, transmission and delivery of voice and/or non-voice messages over Licensee's network by deploying circuit and/or packet switched equipment.

# Unified Access Service License (UASL)

# VNO UL (Access Service)

- There are 2 types of VNO UL Access Service Licenses
- **Access Service (Telecom Circle/Metro Area)**
- **VNO Unified Access Service License (Telecom Circle /Metro circle)**
- The country is divided into 19 Telecom Circle Service and 4 Metro Service Areas for providing VNO Unified Access Service License. Company should be private limited and in MOA it should be mentioned “Telecommunication Services “

# Access Service license Process

- It is an elaborate process where you have to produce documents and fulfill the required criteria. Once you submit your documents with the authorities, it goes for verification and validation and takes a couple of weeks at each phase. However if the documentation is not proper or you miss the fine points during submission, the application will take much longer for rectification and processing further.

# Need Access Service Consultant?

- Expert guidance is essential to get the documents in proper order and to ensure that each and every small detail is properly evaluated and answered. Having a seasoned ISP License consultant by your side not only ensures a hassle free process but also saves on time and effort.
- Of course it costs, but that cost is little compared to the cost of delay to the business plans and impact on ROI.
