

Types of VNO ISP licenses in India

Starting your ISP business will require you to get a VNO license depending upon your business operation plan.

There are three types of UL VNO ISP license based on areas categorized by DoT.

VNO License – Category A is for All India or National level that means in this category you can work All over India anywhere in India as ISP.

VNO License – Category B, in this can work as ISP in Telecom Service Area or Metro area broadly defined it can be a state level or four metro's.

VNO License – Category C is small level which is term as Secondary Switching Area (SSA) which is the smallest area where you can work an ISP.

Depending on the category you select, you will need to prepare the documents and file the application with DOT. It is important that there be no error in the documents else the process will be put on hold leading to unnecessary delays and hassles.

Hiring an experienced consultant can help you save time and efforts and get a VNO ISP License without a hassle in stipulated time period.
